WARREN S. QUIMBY, Treasurer,

I have examined the accounts of Warren S. Quimby, for the year ending March 1, 1890, and find them correctly cast and properly vouched.

JACOB F. WHITE, Auditor.

Report of School Board.

A majority of our teachers have been experienced teachers, while the three or four who began without previous experience have done tolerably creditable work. It sometimes happens that a teacher of greater experience or broader culture than those we can, as a general rule, afford to employ, is forced by circumstances to remain in town and apply for a school here. Such an application is always gratefully received by the School Board, and proves a great blessing to the school applied for. Two or three of our schools have been thus blessed during the past year; but the work done in them should not be taken as a standard of comparison in judging the schools as a whole. The district can not as a rule, expect to secure such teachers except in exceptional cases and the really excellent work done by most of our teachers should be a subject for congratulation.

The school at Back Road kept but little over three weeks in the Autumn, owing to an epidemic of diphtheria among the pupils, and it was not deemed advisable to reopen the school either late in Autumn or in Winter. The school at the Centre closed three weeks before the appointed time on account of the teacher's illness, and we did not think it best to procure a new teacher for the few remaining weeks of the term. In the Flag Hole District there was no Spring term, as we had to await the completion of the new school-house there.

The district built the school-house at Flag Hole, at a cost of \$316 18. The building is an excellent one, small but amply large enough for the needs of the district in which it is situated. Repairs were made upon the East Andover, Taunton Hill and Beech Hill school-houses, the nature and expense of which will appear from the treasurer's report.

In the opinion of the Board repairs upon several school houses are needed. The East Andover and Taunton Hill buildings need new furniture and slight repairs inside. The school-houses in the following districts need painting: Taunton, Hill, Boston Hill, Beech Hill, Cilleyville, West Andover and Andover Centre.

Some of our school-houses are provided with neither maps, charts nor globes; only one school has a proper supply of maps and charts. This is not as it should be, for maps and charts are, in importance second only to books. During the past our schools have been embarrassed by a tendency to use old and unreliable text-books. It is to be hoped that the free text book law will obviate that difficulty. Under that law, the school board must purchase at the expense of the town, all text books and other school supplies, and loan them under certain conditions to the pupils. The town will be obliged to raise money expressly for such school supplies, unless it is considered desirable to use a large fraction of the school money for that purpose.

The treasurer's report, which follows, exhibits in detail the receipts and expenses of the district for the school year. The appendid statistical table shows the comparative strength of the schools, monthly wages of teachers, etc., and the totals for the ten schools, with the average under each column.

Respectfully,

IRA LOVERIN,	} School Board of Andover.
HENRY W. KILBURN,	
WENDELL P. ELKINS,	

Treasurer's Report.

Treasurer's report of school district of Andover,
